Old white is my co-worker,
He sits next to my desk, we
kinda ~~ff~~ like friends ~~but~~ but
not so close. (Friendship between colleagues
are always at a distance)

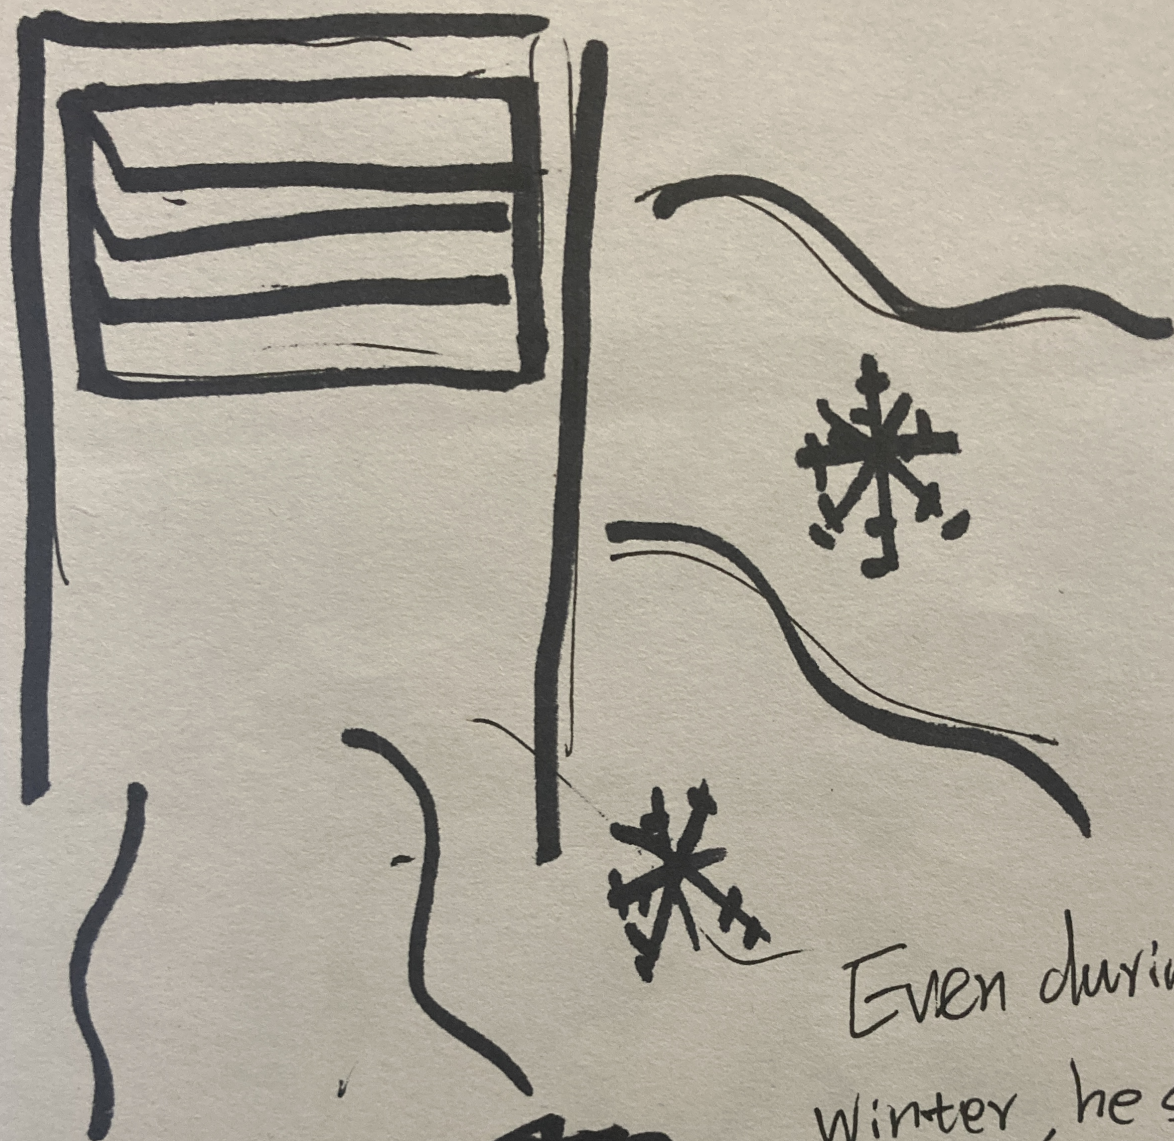

He is a big fan of cellphone games

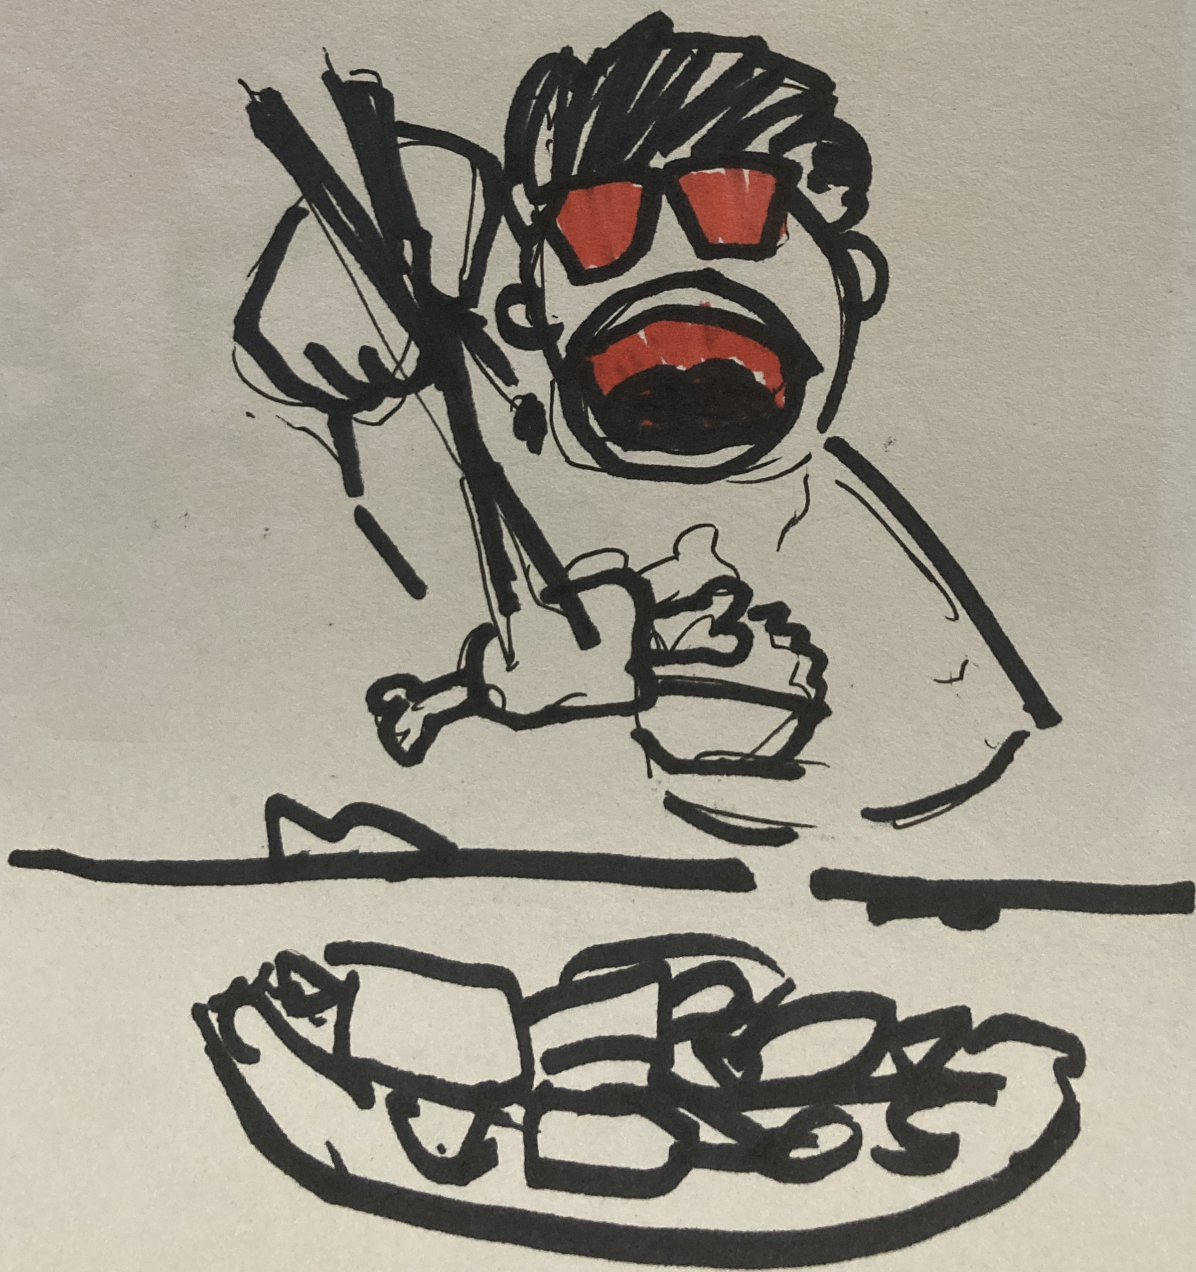

Old White's
stink feet

He often take his shoes off at work
I can smell it sometimes, I hate it
This is not a good habit

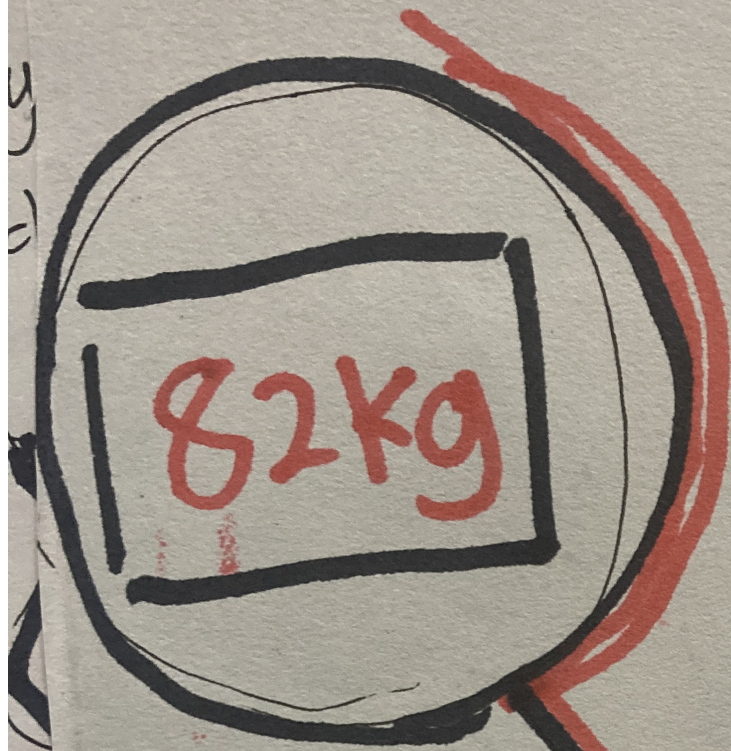

Even during
winter, he still
likes to turn on
the air conditioner
to cold,
because he
hates hot.

Eat faster than anyone else.
Always at beginning of the ~~launch~~
launch finish eating.

Every day he will leave work on time
to buy food for his wife to cook.
Even he does not want this, all
because his wife force him? to.

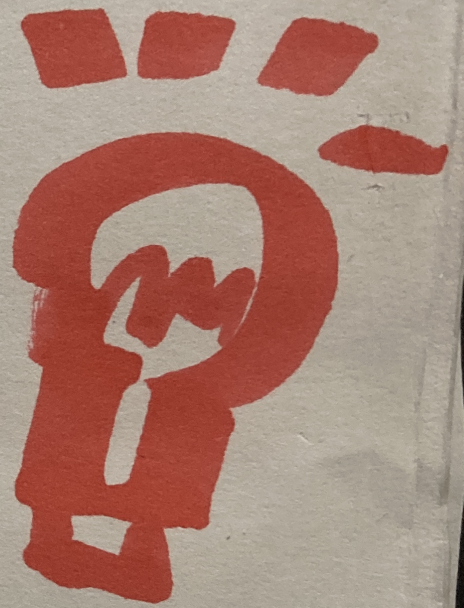

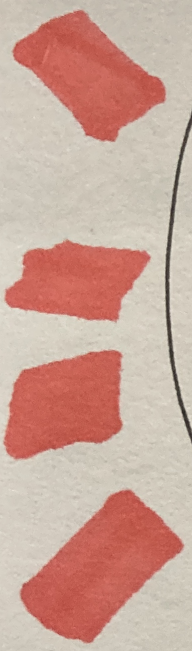

When a man
reach middle age,
~~the w~~
The weight ~~of him~~
is the first one
got out of control.

He is even seen as an inventor by others. such as an electro-motor he made for an video shooting demo.

I'm a little jealous

Old White
take work
very serious
no one can
be more serious
than him.

A very reliable person.

He knows the way to make money
and always be ready to help
others to make money. Everyone
~~respects~~ respects him
